

# Faxmail

## Batch transmission of documents by fax or email

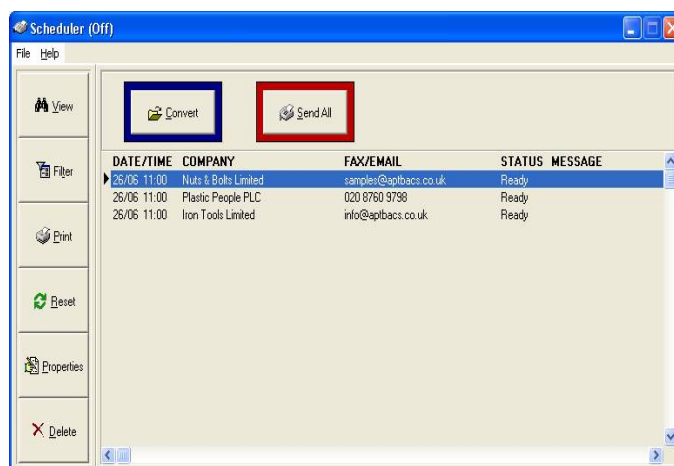

**ARE YOU STILL SENDING REMITTANCE ADVICES AND STATEMENTS BY POST?  
DO YOU WANT TO REDUCE ADMINISTRATION, PRINTING AND POSTAGE COSTS?**

**FaxMail** enables you to send out Remittance Advices, Invoices, and Statements and virtually any other fixed format correspondence, by fax or email in a batch process. This dramatically cuts down on administration, printing and postage costs.

A typical business sending out just 300 Statements and 200 Remittance Advices per month can **save over £4,000** per annum – meaning that **the software would have paid for itself** within the first few months. By extending the function to deliver Invoices, Expense Sheets and even Payslips, the savings would increase considerably.

### FEATURES

- **AUTOMATED BATCH SERVICE**  
Faxes or emails are sent in the background or after hours
- **CUSTOMISATION SERVICE**  
APT will design a template to match the format, including logo, of the documents you currently send out
- **OPTIONAL ROUTING**  
If both fax and email details are available, the user may select which option is preferable
- **PREVIEW FUNCTION**  
Documents can be previewed on screen, and may be printed or retained for future reference
- **AUTO RETRY OF FAILED TRANSMISSIONS**  
FaxMail can be configured to retry transmissions should the receiving fax machine be busy
- **AUTOMATIC PRINTING OF FAILED TRANSMISSIONS**  
FaxMail maintains a list of failed transmissions so the documents can be printed on failure

APT offers a Maintenance service to provide ongoing unlimited telephone.
